Presentation outline

5.2 million more kids under 10 by 2060—great diversity Scenarios for population change: Assumptions matter Varying growth rates Diversity up everywhere

Big metros especially diverse, helping them retain population

Under 10 from now to 2060: White kids down 4.6M, but other groups fuel increase of 5.2M

Source: U.S. Census 2014 National Population Projections. All categories except Hispanic include non-Hispanic only; Hispanics can be of any race.

** Native Hawaiian or Pacific Islander

* American Indian or Alaska Native

Keytakeaways

Under-10 population is growing and diversifying Some states have declining young population; others growing fast

Diversification broadly underway

- Not just Hispanics, but also Asian, multiracial, steady population of African Americans
- Still many white non-Hispanics
