2. Brief Summary of Discussion

- Connections and partnerships at federal, state, and local level with a variety of organizations
- How we produce/conceptualize/use evidence
- Focus on equity
 - What does that mean and what does it look like?
- When seeking workforce data, we ask for a reconsideration of professional registries in 44 states and the 1.8 million members of the workforce they represent. The NWRA can help with these connections.
- In research proposals, consider leveraging the existing aggregate workforce data at the individual level in applied research and utilizing registry infrastructure to support community-based, participatory research methodologies to move learning into actionable impact.
- Tribal involvement
- Reflections on the lives of two founders of the CCEEPRC and the impact of their work
- Impressive to see how much the field has grown and a thank you to OPRE for funding and investing in research
- Moving to a biannual schedule
 - Next convening in 2025
 - National Research Conference in 2024

Next Steps:

- After the session, please review your notes for typos, complete thoughts, etc.
- Send finalized notes to CCEEPRC@icf.com
