Rating Details

This section provides details about how the rating component is structured and the process that is used to rate programs.

Rating structure:	Combination
Number of levels:	5
Length of time rating is valid:	2 years; A midpoint review process is completed at 1 year to ensure that standards are still met.
Rating process:	Licensed programs enter the QRIS at 1 Star. If programs apply to meet a higher level, they must fill out the required documentation and have an observational assessment.
Method of combining points:	<p>One star is equivalent to compliance with licensing regulations. To receive 2 stars, programs must meet all the standards for 1 star, be in operation for 6 months, and meet the standards for 2 stars. After achieving 1 star, a program may decide to meet requirements for a higher star rating. A program must meet all of the requirements for each standard at a specific star level to receive that star rating. If a program chooses to achieve 3 stars or higher, the program must maintain all requirements of the 2 star rating and earn points in Program and Staff Qualifications. A "Quality Point" may also be earned by meeting additional criteria. The total number of points will determine the star rating awarded to the program.</p> <p>3-5 points= 3 stars 6-9 points= 4 stars 10-11 points= 5 stars</p>
Method used to assess programs for infants/toddlers:	Yes. The Infant Toddler Environment Rating Scale – Revised is used.
Method used to assess programs for school-aged children:	No
Different process used to assess family child care:	N/A
Different process used to assess Head Start/Early Head Start:	No
Different process used to assess accredited programs:	No
Events that trigger re-rating:	Change location, new director, teacher turnover (50% or greater), or change in ownership
Description of re-rating trigger:	A mid-point review is conducted for each program at the one year mark. This review ensures that the program continues to meet the standards for their current star rating.

Appeal process:	No
Availability of technical assistance for rating process:	Yes
Description of technical assistance for rating process:	Programs may call a Quality Start Specialist (1 per region of the state) or Local Resource & Referral agency for assistance.
Availability of technical assistance for preparatory process:	No

Quality Indicators for Center-Based Programs

The information in this section provides further detail about observational tools used in the QRS.

Observational tools used:	ECERS-R, ITERS-R
Describe how scores are used in the rating:	<p>1 point: An average of 3.75 on the designated social-emotional subscale of the Environment Rating Scales (ERS) 4, with no one classroom score lower than 3.0 on the social-emotional subscale.</p> <p>2 points: An average of 4.0 on the designated social-emotional subscale of the ERS, with no one classroom score lower than 3.0 on the social-emotional subscale.</p> <p>3 points: An average of 4.25 on the designated social-emotional subscale of the ERS, with no one classroom score lower than 3.25 on the social-emotional subscale.</p> <p>4 points: An average of 4.5 on the designated social-emotional subscale of the ERS, with no one classroom score lower than 3.5 on the overall ERS.</p> <p>5 points: An average of 5.0 on the overall ERS, with no one classroom score lower than 4.0 on the overall ERS</p> <p>Note: The designated social-emotional subscale of the ERS is defined as consisting of the following subscales: -ITERS-R - Listening and Talking, Interaction and Program Structure -ECERS-R - Language-Reasoning, Interaction and Program Structure</p>
Frequency of observational assessment:	1 year
Method for choosing classrooms to observe:	The classroom to be assessed is chosen using a standardized random selection procedure. The

Director prepares a roster for each classroom in the center which includes the following information: Teacher name, room name (if applicable), list of children's first names, and birthdates of children. Rosters are reviewed and each is assigned a number by the assessor. The assessor will provide a numbered card for each classroom in the center. The cards will be placed into an envelope. The Director will choose one number from the envelope. This is the classroom that will be assessed that day. This process will be witnessed by a teacher or staff member of the child care center.

Percent of classrooms observed in child care centers:

One-third (33%) of classrooms in each facility are assessed. At least one infant-toddler (birth-30 months; ITERS-R) and one early childhood (31 months-5 years; ECERS-R) classroom will be assessed in each center. If a particular age group is not served by the provider, the corresponding scale will not be administered.

Training for observers:

Yes. Assessors initially go through five-day training with the authors of the Environment Rating Scales. The first day involves a presentation by the authors on the scales and how to score them. The following 4 days involve intensive work in the use of the rating scales in actual child care center classrooms. The authors' team of trainers serves as primary faculty for the training. Comprehensive debriefing with group leaders follows each daily observation. Assessors are not allowed to make independent assessments of classrooms until they achieve 85% reliability on the scale. Once reliability has been maintained for at least six months, "reliability checks" are conducted after every twelfth assessment.

Initial reliability required:

Yes. Once reliability is achieved, assessors are required to work under the supervision of local supervisors, known as Anchors, to maintain reliability of at least 85% for each scale; an average of the last 3 reliability checks conducted are used. To maintain this standing, each Assessor is re-tested for reliability after every sixth assessment per scale.

Ongoing reliability required:

Yes. Once assessors have been on the job for at least a year and consistently maintain a high reliability rating, reliability checks are conducted every 12th visit.

Observational tool comments:	Practice assessments are available at the request of the program.
